

GreenPeak Vacancy

GreenPeak is a fabless semiconductor company offering innovative ultra low power wireless and battery-free data communication controller chips for consumer electronics and wireless sense and control applications for remote controls, home automation and security.

GreenPeak driven ultra low power networks bring true maintenance-free operation

→ GreenPeak Technologies brings **wireless and green** solutions for control networks with **high reliability** and **standard compliance** and unique features that make it **robust to interference**.

GreenPeak is successfully increasing the number of customers using its wireless IC products. To support this growth, we now seek an

HW Applications Engineer

The position is within the applications and customer support team, so candidates should be comfortable working in a dynamic and fast changing environment driven by demands from multiple active customer accounts.

You will support and guide customers in the development of new applications (PCBs) using the GreenPeak silicon products, participate in design reviews and write technical documentation (application notes).

You will develop a thorough knowledge of the operation and application of GreenPeak silicon products in all relevant market segments.

Experience

- ▶ Customer first attitude, able to interact with a customer and clearly and concisely explain & defend design strategies, discuss problems and find solutions
- ▶ Experience with developing and supporting hardware (PCB) designs for low cost, high volume production
- ▶ Experience with working with complex mixed signal (digital, analogue, RF) semiconductor products is desirable
- ▶ Affinity with EMC & ESD issues
- ▶ Experience of working with RF/wireless products, including ZigBee/IEEE802.15.4 is highly desirable but not essential

- ▶ Bachelor/Master degree in Electronic Engineering with minimum 3 years experience in a relevant role
- ▶ Creative, resourceful, open for alternative approaches
- ▶ Strong technical intuition with a commercial flavor
- ▶ Self starter and a true team player.

Our offering

- ▶ Early-adopter job in growing high-tech company: you really make the difference
- ▶ Extremely dynamic working environment: new ideas are born and implemented as fast as you can manage
- ▶ A job where you work on enabling technology for future wireless systems: our products are applied in a worldwide market.

At GreenPeak, people make the difference!

If you like to join our young and dynamic team and if you are convinced you will be a real asset to GreenPeak, we would be delighted to receive your CV.

GreenPeak
